EDUCATION

- **Queens College, City University of New York (CUNY) — B.S. in Computer Science, Expected July 2026**
Relevant Coursework: Data Structures, Algorithms, Database Systems, Operating Systems, Computer Architecture, Software Engineering, Post-Quantum Cryptography, Internet and Web Technologies
- **HS for CTEA, Queens, NY — High School Diploma, June 2021**
Completed architecture-focused curriculum; trained in AutoCAD and SketchUp

EXPERIENCE

- **CodePath Technical Interview Prep (TIP102) — Student, Summer 2025**
 - Solved weekly HackerRank challenges, completing ≥ 6 to earn a certificate.
 - Strengthened coding/problem-solving skills using the UMPIRE method.
- **CodePath Cybersecurity (CYB101) — Student, Summer 2025**
 - Developed projects on Linux VMs focusing on encryption/decryption.
 - Collaborated on a phishing simulation project covering MFA, real-world phishing, and cryptography mitigations.

PROJECTS

- **8 Queens Solver (C++, CS 211)**
Implemented backtracking algorithm to place 8 queens without conflicts.
- **Student ID Generator (Java, CS 212)**
Built GUI for generating unique student IDs.
- **4-Bit Comparator (Logisim, CS 240)**
Designed binary comparator using combinational circuits (decoders, multiplexers).
- **Student Information System (Java, MySQL, JDBC, CS 331)**
Developed a console-based Student Information System integrating Java with MySQL using a JDBC Driver for full CRUD operations across multiple relational tables. System supporting students, instructors, courses, sections and enrollment records. Implemented complex SQL joins for academic reporting and enrollment tracking.

RESEARCH

- **SQUIRRELS Digital Signature Scheme (CS 381)**
Investigated post-quantum cryptography algorithms (Sampler Z, Base Sampling, Sign, BerExp, ApproxExp) under Dr. Delaram Kahrobaei.
- **RSA Cryptography (CS 323)**
Researched and implemented the RSA algorithm in C++ as a part of my analysis of algorithms project.

SKILLS

- **Languages:** C++, Java, Python, HTML, CSS, JavaScript, SQL
Tools/Software: AutoCAD, SketchUp, Adobe Suite, Linux
Focus Areas: Algorithms, Cryptography, Software Engineering
